

Deepen Activities

1

- a) Kian has 1 banknote. How much money could he have?
- b) Hope has 2 banknotes, but the same amount of money as Kian.

What banknotes could they both have?

- 2 Kieron has 20p. He has more than 1 coin, but fewer than 8 coins. What coins could he have?

I wonder if there is more than one way to make 20p?

- 3** Hope's purse contains 4 silver coins.
2 of the coins are the same.

How much money could be in Hope's purse?

The 2 coins the same
could be 5p coins so I'll
start by working out the
possibilities for that.

I will make sure I find
all the possible answers!
