

Unit 12

Strengthen activities

MISCONCEPTION: Children may confuse the number of grapes with the number of objects in each group.

Answers

Textbook p32

Answer D

MISCONCEPTION: Children may struggle to recognise the structure of an array, and make arrays with different numbers in each row or column and/or mistakenly count too many or too few objects in a row or column.

Answers

Practice Book p17

$5 + 5$ and/or $2 + 2 + 2 + 2 + 2$

MISCONCEPTION: Children may struggle to recognise and find doubles.

Answers

Double 1 is 2, double 2 is 4, double 3 is 6, double 4 is 8, double 5 is 10, double 6 is 12, double 7 is 14, double 8 is 16, double 9 is 18, double 10 is 20.

Deepen activities

Answers

Activity 1

3, 6, 9, 12, 15 or 18.

Activity 2

8 cm tall.

Activity 3

- a)** Answers will vary. Children write a story problem which reflects each picture. For example, for the first picture, a story problem may involve 2 groups of 3 or 3 groups of 2.
- b)** Children correctly match the story problems created by their partner to each of the pictures.
